

Howdy,

My name is Marley LeeAnn Wood, and I am one of the lucky recipients of the NCHA Charities Foundation Scholarship, Dogwood Scholarship, and several other incredible scholarship opportunities offered through the NYCHA. Being a recipient of these generous contributions has provided me the opportunity to earn my education at the great Texas A&M University and allow me to graduate this Spring semester completely debt-free. While achieving this milestone accomplishment in my life would have still been possible had I not applied for these scholarship funds, graduating debt-free would not have been.

As a trainer's child, I am one of several kids who grew up within the NYCHA that fell into the category of those who seek assistance in paying for their post-secondary higher education. The opportunities provided to me at Texas A&M University and the memories made while attending this college are some of the fondest I possess up to this point in my life. I would like to encourage those who are able to donate to the NCHA Charities Foundation Scholarship to do so, and help goal-driven kiddos like myself achieve their ambitions of attending the college of their choice. I would also like to encourage those goal-oriented kids to get out there and start applying for these scholarships, as they have truly changed my life.

Lastly, I want to personally thank each and every individual who has contributed to these scholarship funds which have allowed me to graduate from the greatest university there is. I am the loudest and proudest Aggie of the 2020 graduating class!

Thanks and Gig Em',

Marley Wood
